Subject: BNSF Haystack - Technical Memorandum for Temporary Consolidation Waste Pile
Attachments: BNSF Haystack Technical Memorandum for Temporary Consolidation Waste Pile.pdf

Good morning Steve,

Per the request made during our January 7, 2020 Haystack Mines TCRA Planning Site Visit, BNSF and Arcadis have designed and documented a temporary consolidation waste pile for the planned TCRA excavated material. The attached Technical Memorandum provides a general approach to Arcadis' design and construction for the temporary consolidation waste pile and associated access road.

Although, a site remedial alternative has not been chosen at this time, BNSF and Arcadis would like to understand requirements related to permanent consolidation waste repository construction. At your convenience, please provide BNSF with any technical requirements for permanent consolidation waste repository construction for our review.

If you have any questions regarding the attached technical memorandum, please let us know.

Ali
